Affairs F+B Europe

- Designing and manufacturing products in highest standards, in accordance with relevant US and European Food Contact, Cosmetic, Chemicals and Packaging & Waste Packaging regulations.
- Ensuring the continuous evolution of our strategy by monitoring, evaluating and communicating regulatory developments.
- Proactively working with regulators and other relevant stakeholders for the continuous improvement and the clarification of the regulatory framework.
- Requiring supply-chain partners to meet the same high standards of quality, sustainability, safety and regulatory expectations.
- Using leading-edge technology for sustainable development.

PLEASE NOTE:

Aptar Beauty + Home and Aptar Food + Beverage aim to meet the requirements of the above-mentioned European and American regulations, as far as they are relevant for the respective markets. In the absence of harmonized legislation, national laws may be considered. Any requirement going beyond these regulations requires case by case investigation and discussion between the different parties.

Aptar Beauty + Home does not carry out systematic chemical analysis or migration studies on its packaging. It remains the responsibility of our customers as end-users to check the compatibility of the packaging with the fragrance and bulk to be dispensed and to ensure that there is no negative interaction between them which could endanger the environment or human health.

Aptar Beauty + Home will deliver the regulatory data required to the person responsible for the evaluation of safety of the cosmetic product and its packaging.

Aptar Food + Beverage will deliver the formal Declarations of Conformity to the Food market.
